

VISA[®] Account Updater (VAU)

Visa Account Updater

Automatic payments just got simpler with Xceed and Visa[®] helping keep your card information updated! When you save your Xceed Visa Credit or Debit Card for things like bill payments and online purchases, we can help update it automatically if your card information changes.

If your card is re-issued, you may not have to update your payment info with every biller and merchant where you have it saved* meaning you can:

- Skip the hassle of re-entering or resubmitting your card number or payment info
- Avoid declined payments and service interruptions due to a change in card number or expiration date
- Count on Xceed to help keep your card info secure

It's just one more reason your Xceed Visa is the easy way to pay for everything from your morning coffee to your monthly cell phone bill!

This automatic service is free, but if you decide it's not for you just give us a call or use the opt-out form below.

*Not all merchants participate in automatic updates. Updates are not guaranteed before the next billing cycle.
